Hi Everyone! Here are a few things that everyone should know for our performance at Al Dupont Hospital

*Everyone should arrive no later than 4:45 with your hair and makeup done and in your first costume. We will direct you once you are there on where to change costumes if necessary.

Please stay until the end for the final performance where all dancers participate.

*Everyone should arrive by driving through the main hospital gates, and following the road way all the way down to the newest part of the hospital campus, the tall green and blue glass building. You can park in the underground parking garage (signs will direct you to this). Take the garage elevator to the first floor, which will open into the Atrium. Most performances will occur in the Atrium. There is a possibility that we may perform in the Child Life Clubhouse.

*It is very important that everyone be fever free. Anyone who has symptoms of/or has been exposed to someone with the flu, measles, mumps, hepatitis, chicken pox, rash, diarrhea or vomiting within the past few days should not visit.

*Photos may NOT be taken of or with the patients on any personal phones or any of the members of your group. If a family asks you to be in a picture and they take on their own phone, you may do so.

*All children are required to be supervised throughout their visit with by an adult. Children under the age of 16 are not able to engage with patients and families if a group requests to have an interactive component to their performance.

*No violence, foul language, or inappropriate behavior will be permitted during any of the entertainment or performance. All entertainers and performers must be appropriate for all audiences, preschool age through teens.

*Please respect the privacy and confidentiality of our patients and families. Please do not ask the patients, families or staff about patient diagnosis, length of stay, equipment/bandages, when they are going home, family situations, ect. Also, be sure to respect privacy after your visit and do not share any personal or medical information about children you met during your visit either in personal conversations or online.

* Be respectful of the patient's personal space.

*No balloons, glass items or sharp objects. They are a latex free hospital. *Please do not eat or drink in front of the patients.

*Please do not assist a child in getting up from a wheelchair or wagon; ask a Nemours staff member or the patient's caregiver.
